Aquatic Safety Operations

Strategies for Minimizing Risks and Improving
Safety at Your Aquatic Venue

By Shawn DeRosa, JD., AQP (DeRosa Aquatics)

Join us for a half-day seminar at one of our two host locations! This session will include practical strategies for operating a multitude of aquatic facilities with a focus on safety and injury prevention. Explore state codes for design, construction, and operations, and why they just may not be enough.

\$45
Per Person

Learning Outcomes

- ✓ Identify Key "Starting Points" for compliance with the Model Aquatic Health Code (MAHC)
- ✓ List the codes and standards most applicable to aquatic operations, identify differences between state and the MAHC
- ✓ Summarize applicable safety standards, not always regulated by code but critical to safe operations
- ✓ Approved for AFO Group A renewal certification.
